

The Wisconsin NO Call List needs to be left as is. The Banking industries proposal would weaken this law and the annoying phone calls would start.

My Family and I enjoy a quiet evening with out the constant phone calls from telemarketers, and I want it to stay that way. In the past we told these telemarketers to stop calling only to find out that our phone number was passed on to another marketing company. Please do not put the state of Wisconsin in a situation that would weaken our present NO CALL LIST Law. NO CALL means NO CALL.
